How to Upload Your First File to AWS S3

Step 1. Go to https://aws.amazon.com in your browser.

Step 2. Click **Sign In to the Console** in the top right corner.

Step 3. Enter your email address and click **Next**.

Step 4. Enter your password and click **Sign in**.

Step 8. Click **Create bucket** on the S3 dashboard.

Step 9. Type a unique name in the **Bucket name** field (example: jdoe-practice-01). Bucket names must be unique across all AWS accounts.

Step 10. Scroll to **Block Public Access settings** and confirm all checkboxes are checked.

Step 11. Scroll to the bottom and click **Create bucket**.

Step 12. Find your new bucket in the bucket list on the S3 dashboard.

Step 13. Click the bucket name to open it.

Step 14. Click **Upload** inside your bucket.

Step 15. Click **Add files**.

Step 16. Select a file from your computer and click **Open**.

Step 17. Click the **Upload** button at the bottom of the screen (Figure 3).
